## TECHNICAL DATA SHEET

### DEBRIS AND BARRIER NETTING DNR900 FR

Model #	DNR900 FR black
Material	Knit polyester-Flame resistant
Mesh size	3/8 inch (9mm)
Fabric weight	8 oz/ square yard
Flame retardant test	Meets NFPA-701 Method 1
Melting Point	440° F (226°C)
Breaking Strength (ASTM D 5034)	233 PSI warp 79 psi fill
Bursting strength (ASTM D3787)	170 psi
Yarn denier	1000 denier
Knitting machine	24 Gauge Raschel
Color	Black

DNR900 FR is knotless flame retardant netting with a 3/8 inch mesh. The polyester Raschel monofilament fiber is highly resistant to abrasion, light weight and is resistant to moisture and chemical. DNR900 FR is used in construction for debris containment system, scaffold enclosure, paint and sandblasting curtains. It can also be purchased in white (DNR800 FR White)
